APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.2 cubic feet per second. (Three and two-tenths)

Actual construction work shall begin on or before May 22d, 1918.

Proof of commencement of work shall be filed before June 22d, 1918.

Work must be prosecuted with reasonable diligence and be completed on or before May 22d, 1920.

Proof of completion of work shall be filed before June 22d, 1920.

Application of water to beneficial use shall be made on or before September 25, 1923

proof of the application of water to beneficial use must be filed with State Engineer on or before October 25, 1923.

Map filed JAN -2 1918 WITNESS MY HAND AND SEAL this 22d day

Proof of labor filed DEC 16 1918 of October, 1917.

Proof of completion of work filed DEC 15 1919

Proof of beneficial use filed OCT 22 1923

Certificate No. 916 JK. 4

Issued Dec. 17, 1923. for 0.42 c. f. s. or 12.618 acre feet.

J. L. Singham
State Engineer.

This permit is issued subject to all prior rights on the source. The full statutory allowance of 3.2 cubic feet of water per second for the 320 acres of land described, is herein allowed, notwithstanding the fact that a full water right for the same land has been granted the applicant under permit No. 4427, - so that such quantity may be diverted and used in the event that there is no water whatever available in the source described in said permit No. 4427. However, the total amount of water to be diverted from the combined sources described in the two permits shall not exceed the statutory allowance of 3.2 cubic feet of water per second for the 320 acres of land enumerated. The applicant will be required at the time of filing proof of beneficial use of water to definitely segregate the areas of land which obtain water for irrigation purposes from each of the sources so that a certificate can be issued for the land to which the waters of each source are appurtenant.

A standard headgate and weir must be installed at or near the point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of the water herein granted at any and all times. It is distinctly understood that applicant agrees to the terms herein contained.
